Let's show you what's happening inside...

Our state-of-the-art video otoscope system can show inside your ear canal right up to your ear drum, all visible on the colour screen.

See inside your ear like never before, with no discomfort whatsoever!

Video otoscopy allows us to clearly visualise the ear canal and ear drum by projecting an image onto a computer monitor.

Using video otoscopy, we can see first hand any conditions such as the presence or build up of wax, or debris in the canal that may cause problems with your hearing.

Give your ears a clean bill of health!

Video otoscopy ultimately provides both patients and audiologists with a greater understanding and appreciation of what is happening inside your ear.

ClearChoice - Independent sound advice you can trust

Are we qualified?

Our Audiologists hold advanced degrees from accredited universities and have special training in the identification, assessment and non-medical treatment of hearing disorders. They complete a full-time internship, pass a demanding national examination and must be fully licensed. This makes our Audiologists the most qualified to advise you on your hearing.

How long have we been helping people with hearing difficulties?

We have 35 years experience and have fitted over ten thousand digital hearing instruments. An audiologist who has fitted thousands of patients is more likely to recognise and solve problems. Fitting hearing aids correctly is **both** an art and a science. Our Audiologists will maximise the potential of your hearing instruments by using all of the features of your ideal aid, while the less skilled might fail to activate up to 50% of the hearing aid's capabilities.

How will you determine what is best for my hearing situation?

Our Audiologist will take a detailed history of your hearing problem, your expectations, and lifestyle. In addition a thorough tone and speech testing assessment will be carried out. Measurements for comfortable hearing levels are also tested.

Our comprehensive testing is to improve your hearing sensibility and re-establish normal hearing perception.

Are there any hearing aid manufacturers you recommend?

As Independent Audiologists, we work with all the hearing aid manufacturers from around the world. Every hearing loss is unique and one manufacturer product line may not meet the needs of everyone! As we work with the world's choice, we are in the best position possible to select the correct device that will match your needs.

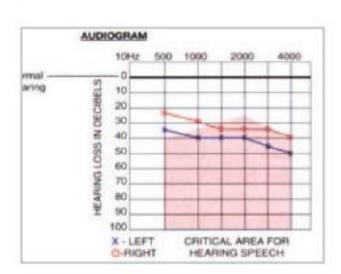

Our free Audiometric Test will help us identify your hearing difficulties

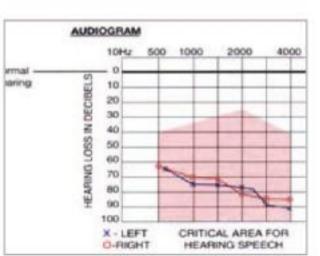

If you want to know more about how better hearing can be achieved - your local Hearing Aid Audiological experts will give you the best advice FREE. There is never any obligation and all the valuable information is available to you.

FREE AUDIOMETRIC TEST

Following a discussion on the history of your hearing and a brief ear examination, our Hearing Aid Audiologist will carry out a free comprehensive hearing test. You are asked to respond to a variety of frequencies which allow the Hearing Aid Audiologist to plot your results on a graph. With the results explained, the test is over... it's as simple as that!

We often find it is a great help when testing your hearing to have a familiar voice with you. Part of our full hearing assessment is to present speech in what is called a Speech Clarity Test. A family member or close friend is ideal and they are free to help you with the hearing test as well as ask questions which you may not have thought of yourself.

Play area revamp

DIDCOT: The children's play area at Didcot's Marsh Road Recreation Ground (pictured) is to be revamped, the town council has announced.

Modern play equipment will replace dated climbing frames and slides as part of a project that could start in the autumn.

Residents are being asked to suggest what they want installed in the playground, off the Broadway, in a survey of nine questions at didcot.gov.uk

The council will then draw up a wish list for companies to design a new play area.

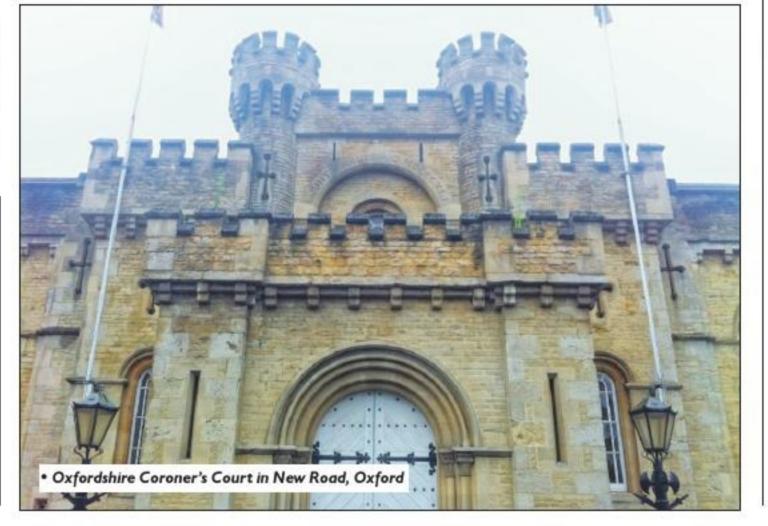

Because the site floods in winter, the council is hoping to start building work either this autumn or next spring.

Decision day

DIDCOT: A decision on plans to build 170 homes between Didcot and East Hagbourne was being debated last night as the Guardian went to press. South Oxfordshire District Council's planning committee was set to vote on an outline application by developer Grainger PLC to build on 1.5 acres of land east of New Road. They have come under fire from Didcot's MP Ed Vaizey, Didcot Town Council, and campaigners.

The meeting in Didcot Civic Hall started at 6pm. For an update see oxfordshireguardian. co.uk or the Guardian next week.

New transport service to ease burden of bus service cuts

NEW plans for buses in Oxfordshire have been announced after the county council voted to scrap all its 118 subsidised services from July 20.

Oxfordshire County Council (OCC) opted to scrap the money it pays to bus operators to keep some routes running in February, in order to save £3.7 million.

The council is in the process of making over £300m in budget cuts by 2020 due to a reduction in funding from central Government.

OCC said it would use a new bookable transport service to reduce the impact of the cuts, as well as using public transport to replace school travel services that were binned.

Council leader, Ian Hudspeth, said: "We would all prefer not to be making cuts at all but Oxfordshire County Council and bus operators have risen to the challenge and been working closely together to progress measures to minimise the impact on local communities."

The bookable service will be available to a range of users from teenagers to elderly people and hopes to use the down time of some of the council's own minibuses.

Dementia risk

OXFORD: The risk of developing the second most common type of dementia is higher if you have high blood pressure, a new study has revealed.

Researchers analysed the medical records of more than four million people and found those aged 30 to 50 with high blood pressure had a 62 per cent higher risk of vascular dementia - the second most common form after Alzheimer's disease. Of the 4.28 million people, 11,114 went on to develop vascular dementia.

Police apologise to family after death of 16-year-old

Tree damaged

WALLINGFORD: A Warborough resident has been convicted of deliberately damaging an 80-year-old tree.

John Bradshaw, of The Green South, was fined £1,000 and ordered to pay £3,796.96 costs at Oxford Magistrates' Court for harming the copper beech tree on his property in a conservation area.

South Oxfordshire District Council (SODC) received a notice of intent to remove the tree because of 'extensive crown die back' in August last year.

Its tree officer visited and found most of the leaf canopy was dead, copper nails had been hammered into its base, and evidence of drilling.

Bradshaw declined to be interviewed by SODC and magistrates deemed him responsible for the damage on April 22.

Thames Valley Police (TVP) has since apologised to the Downes family for the lack of communication and compassion shown.

In a video statement released on Friday morning, Assistant Chief Constable Nikki Ross said: "I'm speaking today on behalf of Thames Valley Police in relation to the tragic incident from the weekend: the drowning of Ellis Downes.

"I am profoundly sorry for the treatment of the Downes family over the weekend, in particular the level of support, the level of compassion, and the lack of information and communication that we afforded them."

Ellis' sister Alex Downes had previously taken to Facebook to criticise the police search effort, saying that not enough resources were deployed to find her brother.

ACP Ross added: "This fell far below the standards we would expect from our staff and I apologise for that. As a mother myself, I cannot begin to understand the distress that the family is feeling but I would expect more care and compassion to be shown to people in these circumstances."

Miss Downes has since welcomed the apology, but said she did not want other families to experience similar treatment.

Expansion starts

BICESTER: Construction work has started on an extension to the Bicester Village retail shopping centre.

The designer retail outlet is taking over the former Tesco site after the supermarket relocated to the new Bicester Business Park on the opposite of the A41.

The former Tesco filling station has already been knocked down and the empty supermarket will follow to make way for 35 new shops and a car park.

The development is due to open in autumn 2017.

BICESTER: A popular free scheme to get people running on Saturday mornings has started in Bicester.

Parkrun sees joggers, runners and walkers meet every Saturday at 9am at the large stone circle next to Mallards Way, Langford Village.

It has been organised by Mick Thorne and is being supported by Cherwell District Council.

Mr Thorne said: "These will be timed runs, not races, with the emphasis on having fun and getting fit in the process."

Participants need to register on the Parkrun website before taking part in their first event and print out a unique barcode to bring with them whenever they choose to take part.

BERINSFIELD: A 79-year-old woman had cash stolen from her by two men last Wednesday in Fane Drive at 6.30pm.

The victim had arranged to meet a man who she believed was returning a watch that had been stolen a year ago.

One of the men took the cash from the pensioner and walked with her along Fane Drive to meet the other man, before the pair ran off with the money.

The first male was white, 5ft 9in tall, in his 20s, of slim build, and was clean shaven with dark curly hair. No description is available of the second man.

"We would very much like to move to a zero-emission zone with electric buses and electric cars but we have to have a lot of infrastructure.

"It's up to national policy to encourage that."

Oxford is the only city outside London to run a Low Emission Zone (LEZ).

As of January 1, 2014, all buses operating in the city centre have had to meet stringent European Union emission rules.

Cllr Price added: "It's possibly also some of the places in the other parts of the city where there is high concentrations of traffic.

"As far as we know, the emissions have been dropping over the last seven or eight years."

A POLICE appeal has been launched to find a man who could have witnessed a stabbing in Oxford last Monday.

> An 18-year-old was taken to hospital in a life-threatening condition after being stabbed in the chest in James Street, off Cowley Road, at 2.50pm.

> The teenager and a friend had been walking along the road before the victim collapsed near Sainsbury's.

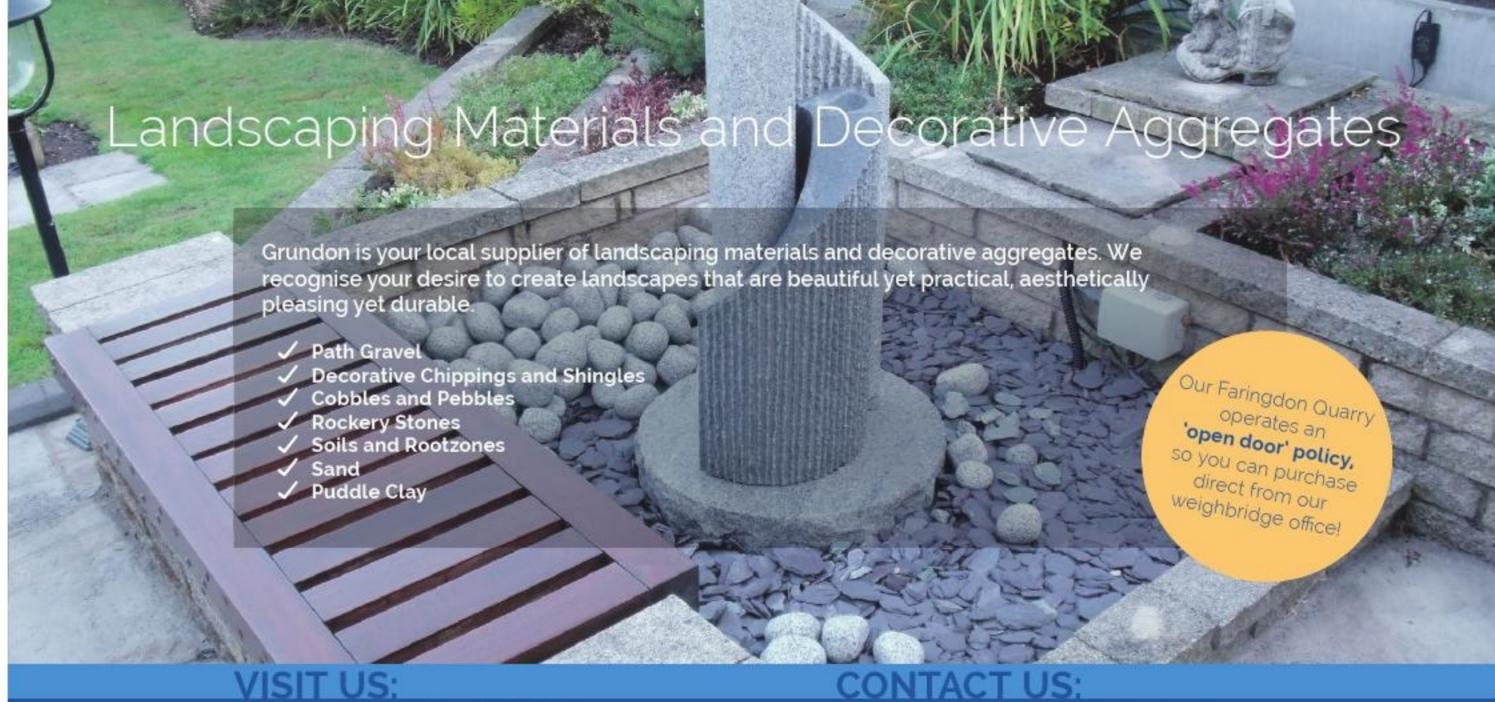

> The potential witness from last Thursday's appeal is described as being a tall, white man with dark hair, wearing a dark T-shirt and trousers and carrying a rucksack on his left shoulder.

> The police would also like to speak to the driver of a white van in James Street which turned into Hurst Street, and the driver of a white hatchback in James Street.

> Detective Inspector Mike Roddy, of Oxford CID, said: "These people are not believed to have been involved in the incident, however they may have witnessed the incident."

> Four men have been arrested in connection with the stabbing and have all since been released on bail.

Sudoku

The objective is to fill a 9×9 grid with digits so that each column, each row, and each of the nine 3×3 sub-grids that compose the grid (also called "boxes", "blocks", "regions", or "sub-squares") contains all of the digits from 1 to 9. The puzzle setter provides a partially completed grid, which for a well-posed puzzle has a unique solution.

High Hopes for Kodaline

GET your tents, backpacks and flags ready as Truck Festival 2016 is fast approaching.

For the first time in its 17-year history, the independent music festival, which focuses on rock, indie and alternative music, will take place over three days rather than two.

Being staged at Hill Farm, Steventon, from Friday to Sunday, July 15 to 17, it will see hundreds of musicians and bands, including Everything Everything, Rat Boy, The Amazons and Catfish and the Bottlemen, entertain

By James Richings

music fans from across the country.

Irish band Kodaline will be headlining at this year's festival - and their guitarist Mark Prendergast believes they will leave their mark.

The 27-year-old said: "We played in Oxford about three years ago and it's a beautiful part of England, so we are looking forward to heading back."

"Headlining festivals is new for us, so we've a lot to prove and there are some other cracking bands on the line-up so were looking forward to hanging out and having a good time."

Originally known as 21 Demands, the group was formed in 2005, consisting of vocalist and multi-instrumentalist Steve Garrigan, Vincent May on drums and Conor Linnane on bass and lead guitarist Mark.

But after struggling to make a name for themselves, the band broke up in 2011 following Conor's departure, but reformed the same year with Jason Boland replacing him.

The band then saw its fortunes change for the better, with its debut album, 'In a Perfect World', released three years ago peaking at number one in Ireland and number three in the UK.

Singles such as 'Love Like This' and 'High Hopes' dominated radio stations and their follow-up album, 'Coming Up for Air', also proved a big hit.

With the group now having thousands of fans across Europe, Mark revealed that the taste of success was very sweet.

"It is still weird playing our tunes in front of crowds and getting a reaction. We love it," he said. "It was difficult but we made it work out of love for music.

"I used to work for touring bands so I had a taste of what it was like on the road and to be in studio and that gave me the hunger to carry on."

We Are The Ocean make return visit

IT'S been three years since rock By James Richings band We Are The Ocean left a lasting impression at Truck Fest 2013.

Rocking out on the Barn Stage, the four friends of Liam Cromby (lead inally a five-piece group, with Dan singer), Alfie Scully (lead guitar), Jack Brown initially being the band's front Spence (bass) and Tom Whittaker (drums) blasted out tunes from their three studio albums, which included tracks off their then latest record, 'Maybe Today, Maybe Tomorrow'.

And, since then, the group's fan base and popularity has increased significantly, with their hard rock and scream sounds connecting with supporters across Europe.

So it is no surprise that they are third album. excited about their return to Steventon's very own music festival on forward to take the microphone, things Sunday, July 16.

The popular Out of Bounds comedy Acts used to be held monthly at the Abingdon Guildhall until the refurbishment of the Hall meant that they had to finish.

The NORTHCOURT entertainment venue, which also includes Music at the Northcourt (held at Abingdon United opposite the Boundary Housel, decided to try to continue the event so that Abingdon and area did not lose something that up to 90 people attended once a month.

However numbers have been around half that which is needed to make it economic and if you used to attend at the Guildhall and didn't realise it had moved, now is the time to come back at the new venue to ensure it will continue.

If numbers don't pick up in the next two events the Comedy will have to sadly close, so if you did attend or know someone who did tell them where it is now, or if you haven't tried live comedy this is your chance to give it a go.

Don't bother to turn up if you haven't a sense of humour or don't like laughing as you would be disappointed.

So come along on Friday 20th May to see four I great comics in a relaxed atmosphere, it starts at 8pm prompt at the NORTHCOURT.

Not afraid to show the world how he works, James, who is also a blogger, released a video last December The show's success put James on showing a live audience the conversation he had with a scammer which because the 'scene' in New York is full

"I've always wanted to be a comedian," he said. "I was going through a phase of doing things I was frightened of and stand-up was one of them."

Alfa's new Giulietta proves seductive drive

THERE is much to like about the By Anthony Yates Alfa Romeo Giulietta – for instance some of us wonder why we went out and bought that Vauxhall instead.

I used to own an Alfa Romeo Alfasud.

Yes, it was terrible and made by people who did not seem to care, but things have changed at Alfa and the end result is the Giulietta that looks and drives fantastically.

Power and Efficiency:

My test car was fitted with a 1.4 TB MultiAir engine with150bhp. Top speed is about 130mph and 0-62 is up in about 8.2 seconds. Of course, it is not the fastest model in the range - that would be the 240hp version and that supported and leg room is good for will easily break 150mph.

Fuel economy for the 1.4 is about 49.6mpg (combined) with CO2 emissions of 127 g/km. I like this range of engines - they are refined and sip fuel.

On the road:

well and the Giulietta feels very good 5" colour touchscreen, tyre pressure on all road surfaces. However, I do monitoring system, front and rear

sometimes, but that is dependent on seat the car setting you decide to choose. Not many of you will know this, but There are no dramas into the corners either and you can feel the Alfa DNA in bucketloads.

Design and Interior:

Look around inside the Giulietta and you can see the setting has been well thought out with the driver in mind. I like the way the centre console swoops down around you, giving you easy access to all the controls you will need. The interior is made of a decent quality material that should wear well for many years. The seats are well all occupants.

Technology:

Oxon out after Unicorn Trophy defeat

OXFORDSHIRE lost their third match in a row on Saturday to end their hopes of progressing to the next stage of the Unicorns Trophy.

Oxon lost by four wickets to Dorset to rule out a repeat of their trip to the final of the competition two seasons ago.

Successive defeats to Devon and Berkshire left Oxfordshire needing a big win to stand any chance whatsoever of making it out of the group stages.

And they made a promising start after electing to bat first as opener Hugo Darby put on 36 from 44 balls.

But aside from an impressive 61 by Jonathan Cater, and knocks of 20 and 21 from John West and captain Luke Ryan further down the order, they struggled after that - limping to a score of 188 all out.

Dorset's batsman were much more consistent after taking the crease as Ryan Scott (49), Max Waller (46) and Luke Webb (33 not out) made Oxon's bowlers pay in reply.

Chad Keegan (2-26) top scored with the ball for Oxfordshire, but was unable to slow the score down as Dorset finished on 189-6 with five overs remaining.

Oxon will finish off their trophy schedule on Sunday when they face Cornwall.

Watford visit

FOOTBALL: Oxford United Women host Watford Ladies at the Northcourt in Abingdon on Sunday in their latest Women's Super League 2 (WSL2) fixture.

The U's have won their last two games, with 1-0 wins at home to Sheffield FC Ladies and Millwall Lionesses on May 1 and 8 respectively.

Oxford are eighth in the WSL2 standings with three points, while opponents Watford are bottom with one.

First friendlies

FOOTBALL: Oxford United will play Solihull Moors on July 9, in their first pre-season game to be announced.

Solihull won the Vanarama National League North this season, and will play host to the U's for the friendly tie at the Autotech Stadium.

Following the game, United will fly out to Spain for a preseason training camp.

Elsewhere, Didcot Town have scheduled five pre-season matches so far for July.

They host Oxford City, Chippenham Town, Hungerford Town and Binfield on July 12, 19, 23 and 26, before travelling to Milton United on July 30.

Gold medallist could miss out on Olympics

KATHERINE Grainger's hopes of defending her rowing gold medal at this summer's Olympics could be in the balance.

The decision has been taken to disband the double of the Oxford Brookes University chancellor and Vicky Thornley.

Grainger was one of the stars of London 2012 as she claimed gold in the double scull after taking silver at each of the three previous games.

The 40-year-old retired after finally achieving her goal, but decided to reverse her decision two years ago to take part in her fifth straight Olympics in Rio de Janeiro.

After a disappointing result at the European Championships in Germany earlier this month however, the partnership has been disbanded, meaning that Grainger will have to compete for a place in the women's VIII.

But after not being selected in the World Cup regatta later this month, and with only the last World Cup in Poland left for her to prove herself, Grainger has admitted that her place is now "in the balance".

Speaking to The Sunday Times, she said: "I've never been in this position before, not having a seat in a boat so close to an Olympics.

"But I don't want to walk away from it now."

Clearer hearing at the lowest prices

Want to hear natural sound? Our new CLEAR hearing aid family lets you hear as close to natural sound as possible.

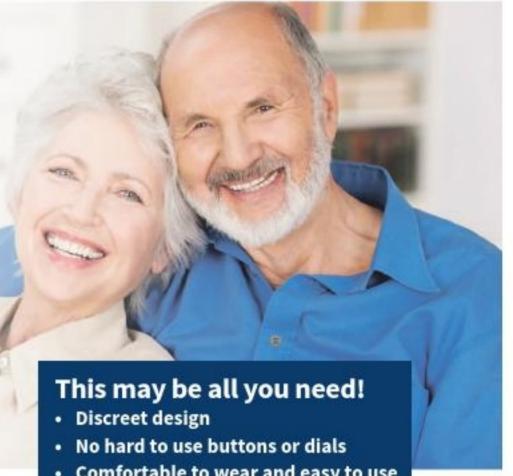

CLEAR hearing aids can communicate wirelessly with each other - just like two ears do. This means that all the functions in your hearing aids are adjusted instantly depending on your listening environment. Meaning that even when soft sounds change to louder sounds, you still hear with clarity.

CLEAR also meets the challenge of hearing from different directions. It is the only Widex hearing aid that lets you focus on sound in selected directions

without turning your head - perfect if you're driving, for example.

And combined with a unique range of wireless accessories, some of the more difficult listening situations, such as watching television, listening to music or using your mobile phone, are made easier.

Ask us to demonstrate the new Widex Unique range allowing you to hear both soft and loud sounds in comfort. It detects your listening situation automatically and makes sure you hear the right sound at the right time in the right place. A unique hearing loss NEEDS a unique solution.

Comfortable to wear and easy to use

The best just got smaller.

The SoundLens 2 from Starkey offers a smaller, next generation design to offer an invisible solution

to more patients than ever before. Tiny but powerful, these advanced instruments are loaded with the latest features and advanced technology giving clearer speech clarity even in background noise.

Because the ClearChoice Exhibitions are totally independent, we are able to offer our clients the latest technology from leading manufacturers like Siemens, Puretone, GN ReSound, Widex, Starkey and many more.

Clearchoice made simple

It is important to remember that we are all individual and so require individual needs. The ClearChoice Exhibition gives you the opportunity to learn more about your hearing loss and the various options that are available to your particular requirements in order to make your choice as clear and simple as possible. This is due to our vast experience and extensive range of hearing aids available on the market.

We always ensure that your better hearing selection is comfortable to wear and easy to use.

The single solution to improved vision and hearing

Wearing spectacles with hearing aids can be uncomfortable and awkward. Some people also find it irritating and unnatural to have a hearing aid in their ear.

The ideal solution to these problems may be spectacle hearing aids. Change your personal glasses into a hearing system for an individual, discreet, comfortable solution.

Ask about our range of spectacle hearing aids including live demonstrations at our ClearChoice Event.

How ClearChoice Exhibition Events benefit our customers

We are delighted to be of service to local residents

"My wife kept telling me to have my hearing checked, so we went together to my local Exhibition. I returned home with a full understanding of my hearing problem and I've not stopped wearing my hearing aids since."

"The aids which I had fitted at the ClearChoice Exhibition are so small and neat that nobody has even noticed that I'm wearing them. The best thing is that I am hearing much clearer even in company."

"I have been taking my dad to ClearChoice for several years for his aftercare service and he loves them!

The Audiologists make him feel comfortable and he always hears much clearer after his visit."
